UNITED STATES ENVIRONMENTAL PROTECTION AGENCY
REGION III
841 Chestnut Building
Philadelphia, Pennsylvania 19107

SUBJECT: September 15, 1992, Meeting with AT&T DATE: 9-30-92

FROM: Cecil Rodrigues

TO: File

Date: September 15, 1992
Attendees: Edwin B. Erickson
Tom Voltaggio
Cecil Rodrigues
William Early
David Chittick
Ralph McMurry
Joe Chickowski

AT&T stated that it was "alarmed" at the possibility of EPA selecting an Off-Site remedy for the C&D Recycling Site. AT&T believes that there is no scientific basis for selecting the off-site remedy. AT&T stated that it believed that the Region was receiving pressure from the community to select an off-site remedy.

Mr. Erickson stated that the Agency would consider all comments when selecting a remedy. He also stated that PADER had notified us that it did not believe that sufficient information existed to state that the on-site containment cell would meet all state ARARS. Mr. Erickson stated that the Agency would evaluate all proposed alternatives when selecting a remedy. He also stated that the Agency would consider a combination of Alternatives 5 and 6.

EPA suggested that AT&T contact PADER to determine if it could address PADER's concerns about an on-site remedy.
